Summary

I LOVE IDEAS!

Whenever an idea pops in my head, I just dive into that rabbit hole and try to come up with something exciting, something that will solve a real-world problem and create meaningful, positive impact. Currently, I'm working in the Supply Chain Management department at bKash, the Leader in MFS industry of Bangladesh. Moreover, I have gathered experience as a Marketing professional (both ATL & Digital) during my time at Asiatic Mindshare Limited.

And when I'm not working, I like to immerse myself in activities like playing football, cricket, reading, photography, and a little bit of cooking.
